

Contractor's Evaluation Wheel

Date:

Use the Contractor's Evaluation Wheel to assess the current state of your organization and establish benchmarks for future trajectories.

Use the questions provided for each sector of your organization to help determine your current evaluation score on a scale of 1 to 10. Circle the score on the line chart then enter the current score in the blue boxes.

Use the results to identify areas of improvement. Review each sector and determine the desired score required to reach your goals and vision. Enter the desired score in the green boxes.

Use this initial evaluation and projection to evaluate progress each quarter throughout the year.
